PROFESSIONAL SUMMARY

Freelance **CX & Cloud Architect** with **18 years' experience** in delivering large-scale **Contact Centre, CCaaS, Cloud and Digital Transformation** programmes across **France and international markets**.

Proven expertise in designing and implementing **scalable cloud architectures** and driving measurable operational improvements: **+25% NPS | -30% AHT | +18 CSAT points | -20% churn**.

Trusted advisor to senior stakeholders (C-level, IT Directors, Operations), providing strategic guidance across **CX governance, Cloud migration, data-driven performance and customer journey optimisation**.

Key strengths: Architecture, Pre-Sales, Programme Management, CX Analytics, Cloud Integration, Multi-country Delivery.

SERVICE OFFERING

What I deliver to my clients:

- **Design and integration of CX Cloud solutions** focused on operational performance and customer satisfaction
 - **Strategic audits and functional scoping:** CX maturity assessment, Cloud roadmapping and data-driven governance
 - **Management of multi-site transformation programmes**, supporting IT, business and data teams through to the achievement of business KPIs
 - **Customer performance optimisation:** omnichannel journey improvement, churn reduction, ROI acceleration and impact measurement
 - **Training and change management** to ensure smooth solution adoption and long-term capability development for internal teams
-
